

Reading and Practice instructions on the HP LoadRunner Tutorial

Please read and practice the tutorial following the instructions below (take three screenshots for whole screen during the practice) and then answer questions in the next page.

1. Welcome to the LoadRunner Tutorial
2. Lesson 1
3. Lesson 2
4. Lesson 4

All except: How can I produce debugging information

5. Lesson 5
6. Lesson 6
 - a) How do I run a load test scenario
 - b) How do I watch a Vuser running in real time
 - c) Where can I view a summary of user actions
 - d) How do I know that the test finished running
 - e) Did the application perform well under load
7. Lesson 7
 - a) How does an analysis session work?
 - b) How do I start my analysis session?

Questions to answer:

1. What is LoadRunner used for?
2. What is Vuser? What is Vuser script?
3. How is the test script obtained?
4. What will a test script used for?
5. Take three screenshots (whole screen) during the practice in the tutorial and give one sentence explanations on each screenshot.
